# Aagam Chemicals

<https://www.indiamart.com/aagamchemicals/>

We are the leading manufacturer & supplier of RO Plants and Water Purifier Plants. Our product range is appreciated for its high efficiency, optimum performance, low power consumption and easy operations & installation.

## About Us

Established in the year, 1990, at Nagpur, Maharashtra, India. We, "Aagam Chemicals", are engaged in manufacturing and supplying of a quality range of RO Plants and Water Purifier Plants, which includes **Demineralisation Systems, Swimming Pool Filtration Plants, Micro Filtration Systems, Waste Water Recycling Plants**. We have a wide distribution network that help us to offer our range to a large client base, which includes **Bajrang Concast Industries Pvt. Ltd., Conros Steel Pvt Ltd., Devyani Alloys, Global Foods Pvt. Ltd** and many more. Our purifier systems are based on reverse osmosis and magnetic filtration technology, ensuring bacteria free safe water is provided to our customers spread across the globe. Our range of RO Plants and Water Purifier Plants caters to the water treatment needs of varied industries, such as Textile, Sugar, Dairy, Food Processing, Pharmaceutical and many more. Our purifier systems are designed and developed as per the defined industry quality standards; ensuring defect free range is dispatched in national as well as international markets. By delivering flawless range of **RO plants** and **Water Purifier Plants** as per the specifications of our esteemed customers, we have become the foremost choice of our customers and have gained an edge over our competitors. In all our business endeavors, we have been assisted by our mentor, **Mr. L.A.K. Jain / Aagam Jain**, who has a rich industry...
